

Harshkumar Narendra

Data Analyst | SQL | Python | Power BI

harshnarendra07@gmail.com | +44 7405 225647 | Wembley, HA0 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Education

University of Westminster

BSc (Hons) Computer Science - Predicted First Class Honours

London

Sept 2024 - May 2027

- Team Lead, delivered a Django-backed web application with a project team, owning database design and testing, and presented to Sky Engineers seminar panel.
- Core modules: Database Systems (SQL), Machine Learning, Software Development Life Cycle, and cyber security frameworks

The College of North West London

BTEC Level 3 National Extended Diploma in Information Technology - D*DD (152 UCAS points)

London

Sept 2021 - June 2024

- Distinctions in Programming, Data Modelling, IT Project Management, Cloud Storage, Enterprise in IT.

Technical Skills

Languages & Databases: Python, SQL, TypeScript | PostgreSQL, SQL Server (SSMS), Supabase

BI & Analytics: Power BI, Tableau, Advanced Excel, data modelling, forecasting

Frameworks, Cloud & Practice: Django, React, AWS, Active Directory | Agile delivery, requirements gathering, spec-driven development

AI: Workflow automation, Prompt engineering

Projects

End-to-End Enterprise Data Analytics & Business Intelligence ([Project Link](#))

- Built an automated Python pipeline to clean raw datasets and impute missing values, protecting data integrity for reporting.
- Loaded the cleaned data into PostgreSQL and ran reconciliations and analysis using window functions and CTEs.
- Designed an interactive Power BI dashboard with slicers tracking KPIs, translating financial movements into decisions.

Predictive Data Modelling & Strategic Analytics ([Project Link](#))

- Developed a multi-layered data model in Excel and SQL for historical analysis and forecasting.
- Built a "Prediction Sheet" automating future-value calculations, removing manual recalculation from the budgeting process.
- Visualised variable correlations to support evidence-based long-term budget planning.

WeCanCIC Web App ([Project Link](#))

- Rebuilt outreach for a non-profit with no central platform for volunteer sign-ups, community discussion or events.
- Gathered client requirements and delivered an MVP on a Supabase backend with volunteer sign-up, chat forum, AI chatbot for volunteer FAQs, points based recognition and released page-by-page via Agile.
- Handed over a platform the client maintains independently; client reports increased volunteer engagement and social reach after SEO optimisation and social media integration.

Work Experience

Cloud Crew

Junior Consultant Intern

London (Remote)

Jul 2026 - Present

- Deliver WeCanCIC, a community platform for a non-technical charity client, in a 3-developer team, from requirements to release.
- Learned React and TypeScript in 1 month to build the front end, shipping pages on weekly sprints for client review and sign-off.
- Applied Data Protection Act and GDPR rules to 300+ user data, storing volunteer locations at city level unless authenticated.

McDonald's

Shift Manager

Wembley, London

Dec 2020 - Present

- Promoted from Trainee Crew Member to Crew Trainer in 6 months, then to Shift Manager within a year.
- Led the store's NSF Health & Safety inspection to a 100% compliance report by auditing digital safety logs and operational files.
- Introduced data-driven scheduling from sales trends, improving the shift's Profit by cutting overstaffing costs by £50-£75 per shift.
- Improved by 0.7-point in the store's Google rating and a 5% improvement in Food for Thought customer scores, earning "Manager of the Quarter" and "Manager of the Month" awards.

Additional Experience

- Microsoft Mentorship Programme:** For 6 months mentored by a Microsoft on how to apply AI and cyber security in business.
- Westminster IFI Programme:** met 12 businesses & startups from all sectors to hear their business problems and pitched solutions.
- EUROCONTROL Data Challenge:** building a machine-learning model in Python to predict aircraft taxi-out times. (**ongoing**)
- Societies & Clubs:** Westminster Tech Society, British Computer Society, and Westminster Cricket Club.

Awards & Interests

- Morgan Stanley Hackathon 2026 (Winner) | EasyA Hackathon (Finalist) | WEA 2026 (Overall Gold Winner)
- Interests:** Fishing, Cricket, Swimming, Hiking, Chess
